

## NEW COMPACT WIRELESS OFFICE ALL-IN-ONE PRINTER FROM CANON CANADA FEATURES ADVANCED WIRELESS CAPABILITIES AND HIGH QUALITY PERFORMANCE

**MISSISSAUGA, ON., January 5, 2015** – Canon Canada Inc., a leader in digital imaging solutions, announced today the PIXMA MX492 Wireless<sup>1</sup> Inkjet Office All-In-One (AIO) printer, featuring a compact design that is 30-percent smaller than the PIXMA MX472 printer. This new model is ideal for users looking to save space in their college dorm room or home office who want to conveniently print high-quality documents or photos. With easy-to-use features, including advanced wireless connectivity and fast print speeds, this printer is the little workhorse to help you complete important day-to-day tasks.

Designed to improve your daily efficiency, the Canon PIXMA MX492 printer includes an automatic document feeder (ADF), borderless printing, fax function, and fast print speeds of approximately 8.8 images per minute (ipm)<sup>2</sup> for black and white prints, and 4.4 ipm<sup>2</sup> for colour. The printer offers high-quality printing with a four-colour hybrid ink system that combines dye ink for vivid colours and black pigment ink for sharp text.

The printer features advanced wireless connectivity solutions providing the flexibility to manage print jobs from nearly anywhere in the home. With the PIXMA Printing Solutions<sup>3</sup> (PPS) application, enabling direct access to the cloud through PIXMA Cloud Link<sup>4</sup>, users can easily print and scan images and documents from several of the most popular online social platforms and services, such as Facebook®, Twitter®, Flickr®, Photobucket®, Dropbox®, Evernote®, Creative Park and Creative Park Premium along with Google Drive™ and Microsoft® OneDrive™. Another advantage of PPS is the ability to check ink model number information, online printer user manuals and other important printer information.

Helping increase productivity even further is Access Point Mode. With this feature, users can connect their compatible mobile device to the printer directly through Wi-Fi®, eliminating the need for an external wireless access point, such as a router. Also, users can share scanned documents and photos easily by scanning data directly to email, or attaching scanned data to a draft email in their webmail account.

The Canon PIXMA MX492 is available in black, with an estimated retail price of \$99.99<sup>5</sup>.

### **AirPrint Compatibility**

The new PIXMA MX492 now supports Apple AirPrint wireless<sup>6</sup> technology. Beneficial for consumers and home office professionals alike, AirPrint<sup>7</sup> allows users to seamlessly print photos, email, web pages and documents wirelessly from compatible iPhone, iPad and iPod touch® mobile digital devices, without downloading or installing any device drivers.

In addition to the new PIXMA MX492, other PIXMA printer models now compatible with AirPrint wireless technology include:

- PIXMA MG7520 Wireless Photo All-In-One Printer
- PIXMA MG6620 Wireless Photo All-In-One Printer
- PIXMA MG5620 Wireless Photo All-In-One Printer
- PIXMA MX922 Wireless Office All-In-One Printer
- PIXMA MX532 Wireless Office All-In-One Printer
- PIXMA iX6820 Wireless Inkjet Business Printer
- PIXMA iP8720 Wireless Inkjet Photo Crafting Printer

*Availability and specifications are subject to change without notice.*

<sup>1</sup> *Wireless printing requires a working network with wireless 802.11 b/g/n capability. Wireless performance may vary based on terrain and distance between the printer and wireless network clients.*

<sup>2</sup> *ISO/IEC 24734, 24735 define the default print and copy speed measurement methods. Print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734, excluding time to print the first set. Copy speed is the average of FCOT, ISO/IEC 24735 Annex D. ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode, ISO/IEC 24735, excluding time to copy the first set.*

<sup>3</sup> *Requires an Internet connection and the PIXMA Printing Solutions ("PPS") app, available for free on the App Store and at Google Play™. Compatible with iPad®, iPhone® 3GS or later, and iPod touch® 3rd generation or later devices running iOS 6.1 or later, and Android™ mobile devices running Android 2.3.3 or later. User must register printer with PPS and be a registered member of the compatible online Cloud*

*service(s) user chooses to access through PPS and is subject to the terms and conditions of those services. Certain functions (scanning and printing locally stored photos/documents) require your device to be connected to the same working network with wireless 802.11 b/g/n capability as your printer. A printer connected to the USB port of your Mac, PC, AirPort™ Base station, or Time Capsule® is not supported.*

<sup>4</sup> *PIXMA Cloud Link Requires an Internet connection.*

<sup>5</sup> *Price is subject to change without notice. Actual price is set by individual dealers and may vary.*

<sup>6</sup> *Wireless printing requires a working network with wireless 802.11b/g or 802.11n capability. Wireless performance may vary based on terrain and distance between the printer and wireless network clients.*

<sup>7</sup> *AirPrint functionality requires an iPhone, iPad, or iPod touch device running iOS 4.2 (or later), and an AirPrint-enabled printer connected to the same network as your iOS device.*
