

CANON CANADA ANNOUNCES NEW PIXMA MG3620 WIRELESS INKJET ALL-IN-ONE PRINTER

Affordable, Multipurpose Printer Offers Improved Printing Experience with Easier Wi-Fi² Setup and Convenient Printing from Compatible Mobile Devices

MISSISSAUGA, ON., July 2, 2015 - Canon Canada Inc., a leader in digital imaging solutions, today announced the PIXMA MG3620 Wireless¹ Inkjet All-in-One (AIO) printer for high-quality photo and document printing. Built with convenience in mind for the everyday home user or college student, this new printer has a simpler Wi-Fi setup than in previous models and includes access to the updated Canon PRINT² application, a four-colour FINE ink Cartridge system for vivid colours and sharp text, Auto Power On/Off functionality, Auto Two-sided Print, and PictBridge³ printing via Wireless LAN for direct connection to select Canon Digital Cameras.

Featuring an improved wireless printing experience for compatible smartphone and tablet users through the updated Canon PRINT application, users can easily print from and scan images and documents to several of the most popular online social platforms and services, such as Facebook[®], Twitter[®], Flickr[®], Photobucket[®], Dropbox[®], Evernote[®], Creative Park, Google Drive[™] and Microsoft[®] OneDrive[™]. This model also supports Google Cloud Print[™], for printing from Gmail[™] webmail service and Google Docs[™] service on a mobile device, and from the Google Chrome[™] browser for Mac[®], Windows[®], Linux[®] and Chrome OS[™] operating systems.

To further expand upon the usability and effectiveness of the Canon PRINT application and PIXMA Cloud Link⁴, new features include the ability to print images directly from Instagram[®] so those special moments can live beyond the digital feed. Also, documents can be printed from SlideShare and users can send scanned documents directly to OneNote[®] Plus. Canon Easy-Photo Print⁺⁵ and Creative Park web applications can be accessed from compatible smartphones and tablets to share and edit individual photos using cloud technology as well. Creative Park features new print layouts that are available via the cloud or from compatible smartphones and tablets.

Using the Canon FINE ink Cartridge system, the PIXMA MG3620 Wireless Inkjet AIO printer produces high-quality output that is crisp, clear and vibrant. This model comes with My Image Garden⁶ software to offer a variety of features designed to inspire and enhance creativity while empowering the sharing of images. My Image Garden also features Full HD Movie Print⁷ software to help users produce clear images of frames from videos captured on select Canon EOS Digital SLRs, PowerShot Digital Cameras, and VIXIA Camcorders. In addition, Special Filters, such as Fish-Eye, Miniature, and Toy Camera, can be applied for further image customization.

The Canon PIXMA MG3620 Wireless Inkjet AIO printer's eco-friendly features include Auto On/Off functionality for energy savings and layout print options including two-sided printing and options for arranging more than one image per page to help save paper.

The new Canon PIXMA MG3620 will be available in early August in three colours -- white, black or red -- for an estimated retail price of \$109.99⁸
